

CHILLERS

17.5KW CHILLER

 **17.5KW COOLING CAPACITY**

 **3 PHASE POWER SUPPLY**

 **H-1320 X W-680 X D-1240 (MM)**

 **WEIGHT - 250KG**

The 17.5kW air cooled water chiller is designed for cooling operations in large commercial and industrial buildings. It has a built in water tank and 30% higher flow rate than most chillers in the market.

With a small foot print and being forklift friendly this unit is a convenient and easy to setup cooling solution.
